

**Precision 3 & 4-Axis Milling
Component Finishing & Assembly**

www.strom-mfg.com

Core Services
 4-Axis Horizontal Milling
 4-Axis Milling
 3-Axis Milling
 Graining
 Vibratory Deburring
 Assembly
 Metrology

Materials
 Aluminum
 Stainless
 Carbon & Alloy Steel
 Brass
 Engineered Polymers

Additional Services
 Pem Hardware Installation
 Plating
 Anodizing
 Powder Coating
 Silkscreening

Horizontal Machining Centers	
1	DMG Mori Seiki NHX4000 4-Axis Mill with 12-Station Linear Pallet Pool
1	DMG Mori Seiki NHX-4000 4-Axis Mill with 5-Station Rotary Pallet Pool
1	Mori Seiki NH4000 DCG 4-Axis Mill
1	Tsugami FMA3-II 4-Axis Mill with 10-Station Pallet Pool

Vertical Machining Centers	
1	Mori Seiki Dura Vertical 5100 3-Axis Mill with Pallet Shuttle
1	Mori Seiki V5000 3-Axis Mill with Pallet Shuttle
3	Doosan DNM5700 3-Axis Mill
1	Fanuc Robo-Drill D21LiB 3-Axis Mill
1	Fanuc Robo-Drill AO4B 3-Axis Mill
1	Fanuc Robo-Drill D2LiB5 3-Axis Mill with Pallet Shuttle
1	Fanuc Robo-Drill D2LiA5 3-Axis Mill with Pallet Shuttle

Grainer	
1	Time Saver Grainer

Metrology	
1	Zeiss Duramax CMM

Who We Are

Strom Manufacturing is a precision CNC machining facility specializing in custom components for high-tech, outdoor recreation, and specialty industrial customers. We focus on milling metal components, typically in small-to-medium lot sizes and less than 36 inches in length.

We have extensive 3 and 4-axis milling capabilities. Three of our four horizontal machining centers have multiple pallets for continuous operation without operator intervention. Four of our nine vertical machining centers are similarly equipped with pallet shuttle capabilities.

In operation since 1974, we run our business in normal fashion daily and in lights-out mode evenings and weekends in order to provide customers with short, predictable lead-times. Our advanced metrology lab includes a state-of-the-art Zeiss coordinate measuring machine for automated measurement of many dimensions per part.

We are an operating company of Compass Precision based in Charlotte, NC.

Please contact us with any capability questions you might have or to request a quotation.
